# OUR HISTORY

2020

2021

2022

2023

2024

## Founding Story

100% black woman owned supply chain & transportation company.

Aimed to exceed industry benchmarks and set new standards for excellence in transportation through continuous innovation and application of technology.

## Strategic Partnership

Partnered with iTechNNov8 (a South African technology company) on joint research and development of software platform aimed at increasing cargo visibility on both road and sea transportation.

## Market Entry

**Milk run:-** Transportation of automotive parts from various local suppliers to a Rosslyn-based multinational automotive manufacturer under administration of Knowcean Business Solutions

## New Markets

Carrier of automotive parts from Johannesburg to Durban for a Durban-based multinational automotive manufacturer.

Transportation of returnable packaging fleet – main route Johannesburg to East London.

## Expansions

Carrier of grain cargo from a farm in Ermelo to Meadow Feeds (Standerton) for JT Britz Transport.

Carrier of automotive parts from Johannesburg to East London under administration of Tulsawiz, as well as servicing local routes between Pretoria and Johannesburg.

# HOW WE WORK

---

### CUSTOMER

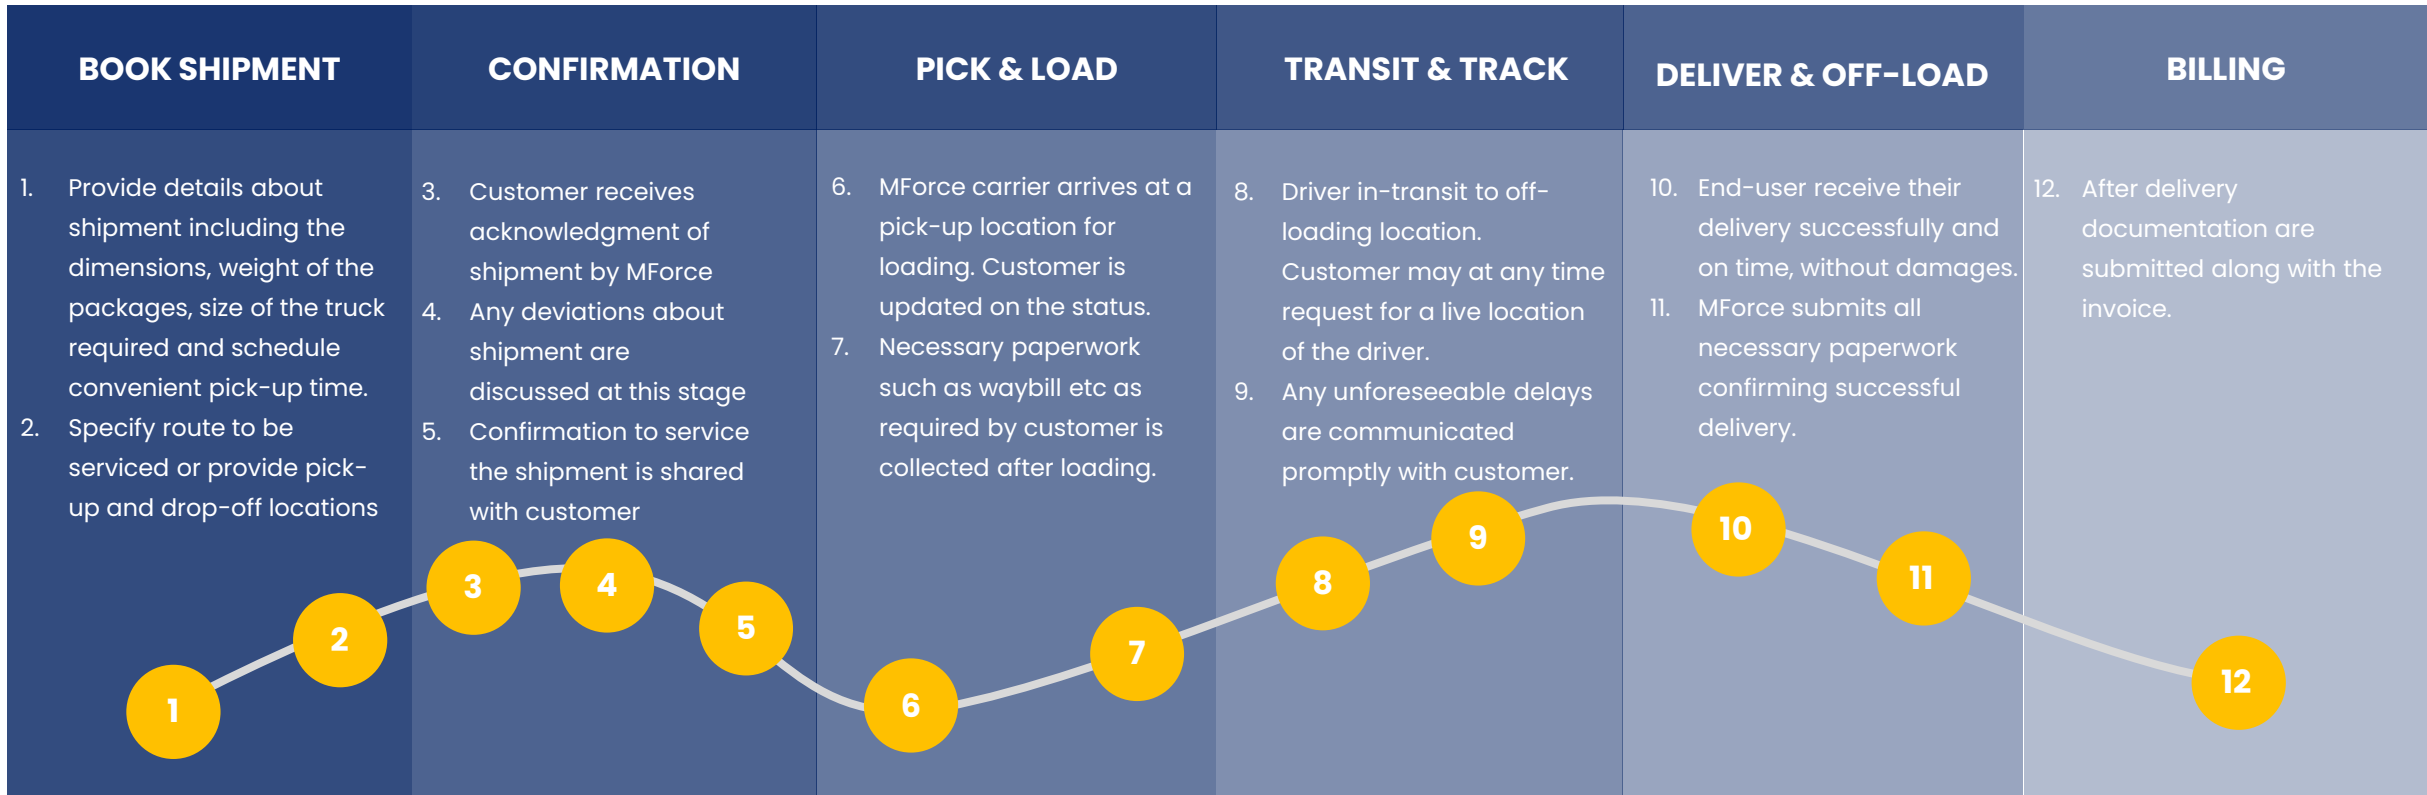

Manufacturers/Cargo Owners  
/Transporters/Suppliers

### SCENARIO

Customer needs to transport cargo from point A to B. Customer partners with MForce Business Solutions for short or long-distance cargo transportation.

### EXPECTATIONS

Safe handling of cargo during loading and offloading, on time delivery, efficient and reliable services.

## PRODUCTS AND SERVICES

### **Freight shipping**

Truck transportation of goods domestically.

### **Route planning and fleet management**

Maximize efficiency, minimize costs, and ensure compliance with regulations.

### **Freight brokerage**

Act as intermediaries between shippers and carriers for movement of goods from one place to another.

### **Tailored Rentals**

Provide truck or/and trailer rental services specifically designed to meet the unique needs and preferences of our customers

# LEADERSHIP

Our COO at MForce Business Solutions, is a qualified BSc Industrial Engineering graduate from the University of the Witwatersrand. He has accumulated 9 years of experience within the supply chain and logistics industry, of which 3 of these years were within the supply chain consulting and the remaining 6 years within automotive logistics sector. He has held a management position for a well renowned automotive company, in charge of import logistics and local flow logistics, managing movement of container, movements of parts and components. He has strategically led the logistics department to an outstanding 40% operational cost reduction during the covid pandemic, achieved through exceptional logistics out of the box strategies.

He holds a certificate in packaging and inbound logistics design from India - the Alliance Technical Centre for Automotives, additionally recently acquired Six Sigma certificate with a project focusing on the after sales logistics for automotives.

# LEADERSHIP

Our CEO at MForce Business Solutions, is a qualified MEng. Extractive Metallurgy graduate from the University of Witwatersrand has accumulated nearly two decades of experience within the Mining Technology sector. He has held senior positions at renowned companies for over a decade, specializing in technology research and development, technology transfer and commercialization, business analysis as well as mining process optimization. With his set of skills, he has worked with, and assisted mining clients in over 25 countries.

He has played a leading role in the development of software platform aimed at providing real-time monitoring and transparency of various aspects of supply chain including deliveries via Road and Ocean transportation. His latest and active development project involves peer-to-peer (P2P) logistics platform that seamlessly connects carriers and goods, fostering economic growth, sustainability, and accessibility nationwide.

Prior to joining MForce Business Solutions, he operated as a subcontractor for various customers where he offered transportation services for both short and long distances. In year 2017, he was awarded his first subcontracting project for cross-boarder transportation services where he covered return trips to Malawi, Zimbabwe and Zambia.
